Ayush Joshi

Data Scientist

EXPERIENCE

Param.ai - Software Engineer Intern | Hyderabad, India

Jan '24 - Present

- Researched and analyzed various products in the multi-channel outreach space, leading to the design and implementation of a robust solution for multi-channel outreach.
- Developed an API for integration into the [tidyhire](#) app, emulating human behavior to extract LinkedIn profile details and interact with them discreetly to evade detection by LinkedIn's bot detector.
- Demonstrated proficiency in translating the organization's specific requirements into user-friendly software solutions.
- Actively participated in team meetings by proposing and implementing solutions to enhance and expand the functionality of the existing system.
- Created comprehensive documentation for the API, facilitating efficient training for both new and existing team members.

PROJECTS

- **tscore - Twitter Tweets Sentiment Analysis** | [Github](#)
 - Developed and implemented an NLP-based solution for detecting the polarity of text for sentiment analysis.
 - Developed and maintained NLP-pipelines for data pre-processing and feature extraction.
- **ai - Lightweight Machine Learning Library** | [Github](#)
 - Researched and crafted Machine Learning algorithms with numpy-compatible functions, ensuring both sophistication and design flexibility for optimal performance.
 - Attained a remarkable 99%+ accuracy, matching Scikit-Learn's estimators, showcasing precision and excellence in algorithmic design.
 - Achieved impeccable 99%+ accuracy in implementing a robust [statistics](#) module, comparable to [numpy.statistics](#), enhancing computational efficiency.
 - Spearheaded the development of a documentation generation pipeline using pdoc, elevating technical communication standards and ensuring clarity.
 - Led deployment of impactful, comprehensive [free-course on Machine Learning](#) covering Linear Regression, Gradient Descent, Feature Engineering, Feature Crosses, Regularization, Logistic Regression, Classification, and Neural Networks.

EDUCATION

Bachelor of Computer Application

Sep '21 - Present

Shri Guru Ram Rai School of Computer Application & Information Technology

Dehradun,
Uttarakhand

- Cumulative CGPA: 8.04/10
- Relevant Coursework:
 - Programming Languages | Mathematical Foundation of CS | OOPS
 - Data Structures & Algorithms | Computer Networks | DBMS | Software Engineering
 - Artificial Intelligence | Data Mining | Data Science | Cloud Computing

KEY SKILLS

• Data Analysis • Data Science • Machine Learning • Statistics • Programming • Problem Solving • Documentation
• Natural Language Processing • Text Classification • Data Processing

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, C++, C
- **Tools & Frameworks:** Scikit-Learn, Numpy, Pandas, Matplotlib, NLTK, Ubuntu, GIT
- **Machine Learning Models:** K-Nearest Neighbors, Linear Regression, Logistic Regression, Gaussian Naive Bayes, SVM, Decision Trees, Random Forest, PCA
